The New Era.

Newmarket, Friday June 19th, 1857.

General Summary.

The Anniversary Soiree of Kettley Division S. of T. takes place to-morrow (Saturday) at one o'clock p. m., and will be held in the Grove near the Village.

The United Counties of York and Peel have appropriated £300 towards the funds of the Provincial Agricultural Society, provided the exhibition of 1858 be held at Toronto or in its immediate vicinity.

During the week His Excellency the Governor General left Toronto for England. General Eyre will assume the Administration of the Government during his absence, or until another Governor is appointed.

We have received No. one of the York Ridings' Gazette, published at Richmond Hill. The paper is a good size, but scarcely large enough for its expansive name. Politically speaking we can say nothing at present.

The Lloydstown Division S. of T. purpose holding a Temperance Festival, on Saturday the 27th inst., in Mr. Lloyd's woods, near that Village. Refreshments served at 1 o'clock p. m.

We have been requested to announce that the Mount Albert Division, S. of T., purpose holding their first annual soiree, on Saturday, July 4th, 1857. Tea served at one o'clock p. m.

The Oak Ridge Division, No. 300, S. of T., hold a Soiree in Mr. John Ferguson's Grove, Lot No. 10, in the 3rd Con. of King, on Saturday the 27th inst. Refreshments served at 12 o'clock, noon. The Newmarket Brass Band will be in attendance on this occasion.

The Secretary of the Mechanics' Institute begs to acknowledge the sum of \$9 as a donation towards its funds, from the "Excelsior Club." It will be recollected that this Club furnished the musical part of the entertainment at the closing meeting of the Institute a short time since.

The Annual Meeting of the Newmarket Branch Bible Society, will be held in the Congregational Church, Newmarket, on Wednesday Evening, June 24th, commencing at 7 o'clock, precisely. Mr. S. B. Johnson, the Agent of the Upper Canada Bible Society, and other Rev. Gentlemen, will address the meeting.

The man supposed to be Townsend has been removed from Toronto to Cayuga Gaol. Very grave doubts are entertained of his being the celebrated and notorious burglar, robber and murderer. The following extract is taken from the Hamilton Spectator:—Seventy people, many of whom knew Townsend, visited the gaol before noon, to-day. None of them said the man was Townsend, many said he was not. Mr. Lawrence, the gaoler, did not know Townsend, but his family were acquainted with him, and say the prisoner is not he.

Glennville S. S. Tea Party.

In compliance with a very polite invitation, we attended the Glennville Sabbath School Tea Party, on Saturday last, the 13th inst. Although the weather was not as favorable as could have been desired, yet, the attendance was large, orderly and respectable.

The Tea was served in a beautiful Grove, some 30 rods from the School House, on the 3rd Concession—and a first-rate one it was. Every arrangement in any way calculated to contribute to the comfort and happiness of those present, was made by the managing committee; and great credit is certainly due them for the complete success of the demonstration.

Just previous to the Tea being served, the S. S. Scholars marched upon the ground in procession, and ascended a Platform prepared for their reception, when they sang a beautiful and stirring air—the Superintendent Mr. J. Hawkins, taking the lead. The children while in procession carried numerous small banners, on which mottoes of praise and passages of Scripture were inscribed, such as—"Holiness to the Lord;" "Remember thy Creator in the days of thy youth," &c.

The temporal wants of the people having been supplied, then commenced the intellectual part of the entertainment.

Mr. Wm. Doan, of Sharon, was called to the chair, and on taking the stand said—he was sorry the duties of chairman had not fallen to other hands. He was, however, pleased at the success that attended this anniversary, there being many more present than he expected to have seen. He had been connected with S. Schools for upwards of twenty years, and he had witnessed many good results. He had been brought up in this section of country; but he could tell there Sabbath School children that he did not possess the advantages they now enjoy. There was no S. S. in the neighborhood then; and he thought they ought to prize highly the efforts put forth by their teachers to instruct them in matters pertaining to their future happiness. The Chairman then called upon the Superintendent to read last year's report, from which we gathered the following facts:—

The average number of children in attendance, during the year, had been 24. The number of verses committed to memory were 6638—a little more than one-fifth of the whole

Bible. Average number each Sabbath 135 verses. The number of books distributed each Sabbath averaged about 20—volumes in the Library, 270. The Superintendent paid a very high compliment to the Teachers in the School,—only one or two absentees during the year, and these from unavoidable circumstances. They have also a Bible Class and Tract Society in connection with this Sabbath School,—both in efficient working order.

The Report having been read, the children sang a beautiful hymn, entitled—"The Better Land," and was followed by the Band playing a lively air.

As this stage of the proceedings, and quite unknown and unexpected to the Superintendent, two of the Scholars, Miss Margaret Black and Master Isaac Patchel, ascended the platform bearing a large Bible and Hymn-Book, beautifully bound, to present to Mr. Hawkins, on behalf of the children of the School.

In bestowing the gift Master Isaac Patchel said—Dear Sir,—We take the liberty of presenting to you, on behalf of the children attending the Sabbath School in this neighbourhood, this copy of the Holy Scriptures and Hymn Book, as a small token of the regard and esteem in which they are held by us, and for your uniform kindness and attention to us since we have had the pleasure of having had you as our instructor. Hoping that God may continue to bless you, and make you still more and more useful, and cause the light of His Countenance to shine upon you, we beg, dear Sir, your acceptance of this gift.

Mr. Hawkins rose, to reply. He said he really did not know what to say. This kind expression of their regard and esteem was beyond his expectations. He congratulated the Sabbath School upon the success that had crowned their labors. Much credit, however, was due to others. In this good work he had been assisted by active and energetic teachers. When a teacher sees that his efforts are appreciated by the children, he is encouraged to go forward with renewed energy, and this kind expression of their regard re-assured him of their confidence. He would encourage them to go forward,—and by following a consistent course they would yet make a "noise in the world." He then most cordially thanked them for the superb present they had bestowed.

Then followed a dialogue between Master Zenas and Miss Margaret Black, and a hymn entitled "Suffer Little Children to come unto me," was sung by the Scholars.

The Chairman then introduced Mr. R. Boyd, to the meeting.

Mr. Boyd said, he consented to take this position on account of a lack of speakers; but he was altogether unprepared to give them a speech, and it was with the greatest diffidence he had consented to all. He felt deeply interested in what he had witnessed this day, and felt altogether unable to give expression to his feelings as he could wish. He came today to listen and learn, and he had not been disappointed. The School had made rapid progress during the year, and although not present at the last anniversary—he believed they had a good turn out; yet, this demonstration far exceeded what he anticipated. After paying a high compliment to the abilities of the Superintendent—and also to the ladies for the quality of the creature comforts provided, he concluded by expressing the gratification he felt at witnessing the result of their labors thus far, and trusted they would go forward, accomplishing good.—(Applause.)

Dialogue—Miss Martha and Catharine Patchel.

Hymn—"The Better Land," followed by the Band playing a duet and chorus.

The Chairman next introduced Mr. Thos. Nixon to the meeting, in a very complimentary manner.

Mr. Nixon, after a few introductory remarks, observed, it was really pleasing to see so deep an interest in Sabbath Schools; and when we look around and see so many little children, and reflect that each is endowed with an immortal mind, it is doubly pleasing to see them engaged in that which pertained to their everlasting peace. He was particularly pleased with the Report read by the Superintendent. Notwithstanding the number of Scholars in attendance were few, the labors were great. Those 6,638 verses committed to memory gave evidence of an amount of labor that would have done credit to a much larger school. And supposing that this was all the teachers had accomplished—the stamping indelibly upon the young and tender mind so large a portion of Scripture, he considered they had done enough for the children, and for which the parents ought to feel grateful. The speaker then gave an illustration of the value of committing verses to memory. A little boy brought up under the Roman Catholic faith had obtained a copy of the Scriptures and learned a portion off by heart. When the priest heard of it, he ordered the Bible to be taken from him; but when the book was being destroyed before his eyes, he exclaimed—"Thank God, you cannot destroy the twelve chapters of the Gospels I have committed to memory!" (Hear, hear.) When the first S. Schools were established the object then sought was to improve the children in reading, writing, &c.; but now they occupied a far more exalted position, and the people that supported them had a much higher object in view, viz:—the elevation of the mind—informing the judgment, and leading those under their care to serve the living God. And it is not hazing too much to say, that the instruction already given these children may be the means of saving them from the path of the destroyer. It is often a subject of complaint that children do not fully appreciate the labors of those instructing them; but this Sabbath School had given evidence this day, that they knew how to appreciate the services of those laboring in their behalf. He understood the School desired to increase its library; this was right. When we look abroad over the length and breadth of our country—progress, was the word. We may be going too fast in some things; but one thing he was sure of, they were not too fast in seeking for the grace of God—they were not too fast in becoming

disciples of Christ. One thing pleased him much, and that was the establishment of Bible Classes and Tract Society. He hoped they might still increase, and finally be rewarded abundantly for their labors.

Band—March.

Recitation by Master John Mons on Stavey.

Hymn—Sung by the children entitled "Heaven."

Dialogue between Miss Elizabeth Muns and Master Edward Patchel—Titles applied to Christ.

Band—Solo and Chorus.

Recitation—by Miss Elizabeth Gordon.

The Chairman next introduced Mr. E. Jackson to the meeting.

Mr. Jackson said he did not attend the meeting as a speaker, but rather as a reporter. He could, however, but congratulate them upon the success attending their second anniversary. What had been witnessed this day gave evidence that much time and labor on the part of the teachers had been expended; but it was particularly gratifying to see how well their labors had been appreciated by the people. He wished them success in the prosecution of a work calculated to accomplish so much good.

Recitation—Miss Margaret Muns.

Band—March.

Mr. Nixon then moved, second by Mr. Boyd, a vote of thanks to the Ladies, for the manner in which they had provided for the temporal wants of the assembly.—Carried amid loud applause.

A vote of thanks was then given to the Band and also to the Speakers, and the assembly dispersed.

Although we have had very much to curtail the above report, it will be seen that the Glennville Tea Party possessed more than ordinary interest. The Bradford Brass Band was in attendance and contributed much to the enjoyment and pleasure of the occasion. Every arrangement appeared perfectly satisfactory to all concerned.

Canada Christian Conference.

NEWMARKET, June 18th, 1857.

The above Conference commenced its Annual Session in this place to-day, at 10 o'clock a. m.

After the usual services had taken place, it was moved by Mr. B. W. Howard, seconded by Mr. Wm. Dunham, that Elder J. W. Nobles preside as Chairman, for the current year.—Carried.

Moved by Elder H. Hayward, seconded by Mr. B. L. Bradley, that Mr. J. W. Collins be appointed Clerk for the current year.—Carried.

The Conference then adjourned till one o'clock p. m.

One o'clock p. m.

The Conference resumed business at one o'clock, when the minutes of last Conference were read and adopted.

A full report will be given next week.

Foreign and Colonial.

Arrival of the Ericsson.

New York, June 11.

The Ericsson, from Liverpool on the 27th ult., arrived last evening with four days later advice.

The Mexican and Spanish negotiations were at a stand, waiting despatches from Mexico. The Neuchâtel protocol is reported to be signed.

The bullion continued to ebb from the Bank of France.

The relations between Sardinia and Austria, continued without change.

In the British Parliament, the annuity of £8,000 per year to the Prince of Wales, agreed to without a division; Mr. Roebuck making a feeble demonstration. Dowry of £40,000 was brought before the Committee of Supply, when Mr. Cunningham moved that the pension be reduced to £6,000, and the Dowry, £10,000, be added to the second.

A new writ was moved for against Thomas G. Baring, who is appointed a Lord of the Admiralty.

Attention had been called to the increased importation of slaves into Cuba, and the inadequate British force on that coast. Lord Palmerston said that Lord Clarendon had renewed his representation to the Spanish Government upon this subject, and that no effort would be wanting as far as negotiation could go to induce the Government at Madrid to take effectual steps to put down the trade.

The East India Company have taken possession of the island of Perim in the Straits of Bab-el-Mandeb and completely cutting the entrance to the Red Sea. The ostensible cause is that two years ago an English ship was wrecked on the coast of Barbary and pillaged by the natives. And artillery placed on the island.

The Paris Journal, *Des Debats*, confirms the report of the French Government, that the French commander in chief on the coast of Africa has seized, in the name of the French Government, a tract of land called Dak Koy, said to be one of the most important in Senegal.

The negotiations of the Mexican envoy with Spain are understood to be impeded by some failure in diplomatic form which will have to be referred to Mexico to be ratified.

Wheat was buoyant, and had advanced 3d. Corn was also buoyant, and had advanced 2d. The market for all closing quiet. Consols 93 1/2 a 93 for money.

Counties' Council.

WEDNESDAY, June 10th, 1857.

The Council met this day at 9 o'clock a. m., the Warden in the chair. Messrs. Pingle and Dobson, members who had not previously appeared at this session, were present to-day.

Moved by Mr. Tyrell, seconded by Mr. James, that a select committee be appointed to draft a petition to the two branches of the Legislature, recapitulating the principal subject contained in the former petition of this Council, in January last, on the subject of separating these Counties from the City of Toronto for judicial purposes, and report the same to this Council; and that the said committee be composed of Messrs. Hughes, James, Smith and Wheeler.

Mr. Reesor was favorable to the object of the committee, but suggested an increase of the members of the committee by adding the Warden's name. He was surprised at the course pursued in the Upper House in relation to the bill for separating the City and County for judicial purposes, and thought it was in a great measure owing to the

THE NEW ERA: JUNE 19, 1857.

service of persons to lobby, in favor of its passage. He would move in amendment, seconded by Mr. Jones, that this Council resolve itself into a committee of the whole to consider the best means to be adopted in order to secure the passage of an act authorizing the separation of these United Counties from the City of Toronto for judicial purposes.

Mr. Tyrell would consent to add any names that the Reeve of Markham might suggest, and did not see that any result would be arrived at by going into committee.

Mr. Smith would suggest to Mr. Tyrell the temporary withdrawal of his motion.

The amendment was then carried and the Council went into committee of the whole—Mr. Price in the chair.

Mr. Reesor then enquired of the Warden whether in his opinion it would be better for the Council to take steps in favor of a special bill or a general measure.

The Warden did not think that it made any difference as to the ultimate success of the measure. He would advocate the presenting of a petition to the Governor General, fully representing the disadvantages under which they labored with regard to prison accommodation.

Moved by Mr. Tyrell, seconded by Mr. James, that a select committee be appointed to draft a petition to the two branches of the Legislature, recapitulating the principal subject contained in the former petition of this Council, in January last, on the subject of separating these Counties from the City of Toronto for judicial purposes, and report the same to this Council, and that the said committee be composed of Messrs. Hughes, James, Smith and Wheeler. Carried.

Messrs. Tyrell and Reesor's names were also added to the committee.

The committee then rose and reported the resolution, which was adopted by the Council.

Mr. Reesor, seconded by Mr. Reesor, then moved that the select committee be appointed to report a petition to the Legislature praying for a separation of the City of Toronto from the Counties of York and Peel for judicial purposes be instructed also to report a petition to the Governor in Council, urging upon him the necessity and importance of appointing an arbitrator on behalf of the City of Toronto, in order to bring to an issue the question now pending between the municipality and these united counties in regard to the use of the county buildings. Carried.

On motion of Mr. Smith the Council then adjourned.—*Colonist*.

Victoria College.

(From the Cobourg Star.)

On Wednesday last the Academic year of the University of Victoria College came to an end.

The commencing exercises took place in the Wesleyan Methodist Church, at 7 p. m., the Rev. S. S. Nelles, a. m., President of the College, occupying the chair. The service was begun by the choir singing "The Seraph." followed by prayer from the Rev. John Ryerson.

The delivery of the essays then proceeded as follows:—

"Pleasure of Science," Ashton Fletcher, Weston; "British Empire in the East," T. F. Shoemaker, Oswego, N. Y.; "One Idea," Henry Tew, Paris; "Shen Huan and Japlet," W. R. Parker, Bradford; "Conquest of Mind," R. A. Montgomery, Elmbridge; "Valdettory," John W. Kerr, Amelburg.

The formal conferring of the degrees granted by the Senate on the preceding day was then proceeded with. The following are the names of the candidates ranged under their respective degrees:—

B. A.—Robert A. Montgomery, John W. Kerr, B. A., T. C. D., Professor of Classical Literature in Victoria College.

M. D.—J. R. Agnew, E. L. Bailey, C. V. Bertman, R. C. Curry, W. N. Drake, J. Donnelly, J. Dixon, M. D., Robt. Emery, Byron Ghent, M. D., W. B. Gowan, Henry R. Haney, M. D., R. I. Hickey, A. B., M. D., J. A. Muller, C. McIntyre, Hiram Noble, Fred. Pritchard, John Reeve, G. C. Shannon, F. D. Stevenson, C. D. Tufford.

Ad eundem.—John B. Sculler, M. D., Dr. Gaskie, of Toronto, one of the Medical Faculty of the College, then delivered a most admirable charge replete with the most judicious counsels to the young medical graduates who could not but appreciate the affectionate earnestness of tone and gentlemanly feeling which characterized the address.

The President then rose and said that he had anticipated the presence of Dr. Ryerson, but owing to the pressure of official duties he had been unable to remain. He (the President) next expressed his great thankfulness that a Session of unusual turmoil and anxiety had been brought to such a harmonious close.

The interesting services of the evening then closed with the national anthem and the benediction.

On the same evening, the Rev. S. D. Rice was presented with a gold chain by some of the ladies connected with the Faculty, Professor Wilson acting as the interpreter of their good will. Mr. Rice made a feeling reply.

Management of a Match at Cricket.

The following useful hints are from *Lillywhite's Guide to Cricketers*, just published, which has reached its tenth edition, numbering 45,000:—

"In making a match, bear in mind the old adage, 'A match well made is half won.' As a general rule choose first innings; because it is easier to stop runs than to make them at the critical part of the match. Still you may take into consideration that the dinner often spoils the bowling, and some men have better sight and are less nervous after fielding first. If you go in first, let two of your most safe batsmen be put in, that you may 'kill' the bowling in the early part of the game. When a player is put out, and the bowling becomes loose, put in a resolute hard hitter; also when two players have been at the wicket some time and become warm, and one is put out, take great care to fill the vacant place immediately, lest the other should become cold and stiff. A line off hitter and a fine leg hitter together puzzle the field."

"Take care when you put in one of those half-bred cricketers who cannot judge a run. He may run your best hitter out."

"Two free hitters run each other out of breath."

"Before playing a match, let your eleven practise together, each in his own place, and each going in the same order as in the match. If your party take the field, first, let your bowlers take full time between the delivery of the balls. If your opponents get well in, and are getting runs too fast, change the bowler from slow to fast; runs are obtained, taking care that the bowler you put in his place is opposite to him both in delivery and speed."

"You should avoid indulging nervous practices—if asked to go in first, go immediately; never decline through prejudice and superstition. There is nothing like bringing yourself continually to think (whether you have been at the wicket an hour or not) that you are just beginning again."

"If your side have to go in for a certain number of runs in your last innings, always keep back two or three of your best and steady

ling to make that acknowledgement to the Superintendent who presides with so much talent and success, of the sense the Council has of his services. If he went on to state that the reason why he had always objected to the employment of ministers to preside over educational matters was the difficulty of getting them to devote the necessary time and labor to the duties of the office. There are now general complaints of inefficiency arising out of the manner in which the School Returns are made, and he thought that it would be well to consider if some better system could not be devised.

The Council then agreed to visit the Schools during the afternoon, and adjourned until 3 p. m.

The Council resumed at 3 p. m., and went into committee of the whole on a motion reported by Mr. Gamble from the Committee on Finance and Assessment; that pounds be appropriated from the County Funds in aid of the Provincial Agricultural Society, provided that the Exhibition of 1858 be held at Toronto or its immediate vicinity.

He moved that the blank be filled with "£300."

The Committee shortly after rose, and reported progress, the Council proceeding, according to resolution, to visit the Normal and Model Schools.

At 7.30 m. p. m., the Council again met and went into committee of the whole on the resolution.

Mr. Wheeler moved in amendment that the blank be filled with "£500."

This amendment was supported by Messrs. Hartman, Starratt, and Wright.

Mr. Jones moved in amendment that the blank be filled with "£1500."

Mr. Tyrell was of opinion that these agricultural exhibitions were not as beneficial as many persons imagined, and moved in amendment that the Committee rise and report progress. He subsequently withdrew his amendment.

And the original resolution was carried on a division; yeas 15; nays 6.

The Committee then rose and reported to the Council, and on the motion for the adoption of the report.

Mr. Ross moved that the figures "£300" be struck out, and "£500" inserted instead. This was lost on a division yeas 9; nays 16.

The Council then adjourned.—*Colonist*.

On Wednesday last the Academic year of the University of Victoria College came to an end.

The commencing exercises took place in the Wesleyan Methodist Church, at 7 p. m., the Rev. S. S. Nelles, a. m., President of the College, occupying the chair. The service was begun by the choir singing "The Seraph." followed by prayer from the Rev. John Ryerson.

The delivery of the essays then proceeded as follows:—

"Pleasure of Science," Ashton Fletcher, Weston; "British Empire in the East," T. F. Shoemaker, Oswego, N. Y.; "One Idea," Henry Tew, Paris; "Shen Huan and Japlet," W. R. Parker, Bradford; "Conquest of Mind," R. A. Montgomery, Elmbridge; "Valdettory," John W. Kerr, Amelburg.

Arrival of the Europa.

HAVERHAM, June 16.

The Royal Mail steamship *Europa*, Captain Leitch, arrived at this port at an early Saturday this forenoon. She left Liverpool on days later than the *Vanderbilt*.

Parliament which at the date of the accounts by the *Vanderbilt*, was not in session in consequence of the Whit Sunday holidays had again assembled, had not, up to the departure of the *Europa*, despatched any business of particular note. The debates had been rather tame.

The United States' steamship, *Nagara* Captain Hudson, having been inspected by the American Minister has proceeded to Portsmouth to receive the necessary alterations preparatory to taking on board her portion of the Atlantic cable at Liverpool. The British Government had readily loaned the use of the dock yard at that place.

LIVERPOOL MARKETS.

The Liverpool market had resumed a feature of extreme dullness, and to affect sales, a slight decline had been submitted to on all articles except corn, the prices of which were barely maintained. The intervention of the holidays with the favorable weather for the crops had been mainly instrumental in this depression of the market.

Newmarket. 16-11

DR. POWELL'S

Vegetable Pulmonary Balm,
FOR THE SPEEDY CURE OF
Coughs, Colds, Hoarseness, Bronchitis, Influenza, Hooping Cough, Incipient Consumption, and for the Relief of Consumptive Patients in the Advanced Stages of the Disease.
THIS Remedy is composed entirely of Botanic preparations, preserved in purity, and is therefore entirely free from any injurious ingredient. It may be given, in doses according to the Directions, to the most delicate persons, and to children or infants, for whom it will be found excellent.
It is well adapted to the cure of all Coughs in their early stages, and a few drops taken in time will often save a vast amount of suffering, and a vast number of useful lives, which would otherwise be sacrificed. It is remarkably efficacious in the relief of cold of Chronic Coughs, which indicate formidable and dangerous affections of the lungs. The testimony of one of the most celebrated Physicians of the present day, (who now practices in Philadelphia,) in regard to it is—
"I have found no remedy so efficacious as this in very obstinate cases of Cough. It has happened to me to see a great number of such cases yield to it. It appears to exercise an alterative influence over the Bronchial Mucous Membrane, independent of its expectorant Power."
Testimony to the same effect may be adduced from Physicians of eminence; and from those who have experienced its beneficial effects upon yourself will be worth more than the testimony of a thousand others.
Price 25 cents per Bottle.
Wholesale Agents—

To the buildings recently occupied by Mr. Thomas Conron.
MAIN STREET, NEWMARKET,
Where he will be most happy to wait upon those who may feel disposed to entrust him with their orders.
BOOTS AND SHOES,
Of all descriptions, Ready-Made, kept constantly on hand. As the work is all executed under his own supervision, he has great confidence in recommending it to the public.
J. RHINEHART.
Newmarket, May 14, 1887. 16-15

WOOL! WOOL! WOOL!

ENCOURAGE HOME MANUFACTURE!
60,000 LBS. WOOL WANTED at the highest market price will be paid in Cloth, Suits, Ties, Coshmors, Flannels, Blankets, Ready-made Clothing, or CASH. In anticipation of the approaching season great exertions are being made to manufacture a large stock of goods suitable for the exchange trade. Farmers will find that important improvements have been made in the quality of the fabric, and they will have a larger, more varied and valuable assortment of home manufactured goods to select from than has ever before been offered in this market.
To those who prefer furnishing their own wool, and to have their goods manufactured by the yard, the subscriber would say, that notwithstanding the fact that prices of almost every article of produce, the prices for manufacturing by the yard,
Custom Carding & Cloth Dressing,
will continue to be done at the same moderate rates as last year.
A First-Rate Fashionable Tailor
will be employed at the Factory, and an assortment of English and French Superior Cloths will be kept; and no pains will be spared to give entire satisfaction to all who may favor this establishment with their patronage.
CORDWOOD
And every description of Produce will be taken in Exchange for Goods or to be paid for in custom work. N. B.—No Credit for Custom Work.
W. A. CLARK, AGENT.

EPHRAIM TRAVISS,
May 19, 1887. 16-16 Proprietor.

Agricultural Implement Manufactory and IRON FOUNDRY.

BRADFORD, COUNTY OF SIMCOE.
THE Undersigned would respectfully announce to the inhabitants of the surrounding Country, that they are manufacturing for the ensuing season
100 REAPING MACHINES,
(Seymour & Morgan's Patent), of the very best materials, which they will warrant to equal. If not superior, or in the Province. Being this season enabled to have the castings made and fitted up under their own superintendence, they feel confident they will be able to build their Reapers in a superior manner, and at the most advantageous prices of that liberal patronage bestowed on them during the past season.
Price of Reapers, \$119 cash; \$115 part cash, remainder in six months.
They also manufacture Kitchin's MOWING MACHINES, at a reduced price.
Fanning Mills, Straw Cutters, Horse and Improved Cultivators, kept constantly on hand.
T. GOODFELLOW & Co.
Bradford, April 15, 1887. 16-11

"Equitable" Fire Insurance Company
 OF LONDON.
 CAPITAL, £500,000 STERLING.

General Agents, British North American Colonies
 FREDERICK R. STARR.
 MONTREAL.

This Office insures against Loss or Damage
 by Fire, all descriptions of Buildings, includ-
 ing Mills and Manufactories, and the Goods,
 Wares and Merchandise in the same; Ships

The "Equitable" Fire Office will, by constant analysis of its own experience from time to time, adopt such rates of Premiums as the nature of the risk may justify.

With this view, an annual investigation will be made into each class of risk, and a return of one-twentieth of fifty per cent—of the premium on every policy issued to all classes of Insureds, where Policies have been in force for three years.

The engagements of the "Equitable" are guaranteed by a responsible Proprietor, and an ample subscribed Capital. The insured are free from the liabilities of a Mutual Insurance Society, and entitled, according to the plan of the Company, to a return of half the

Policies are made good without deduction of
 discount, and are adjusted and paid in Mont-
 real, without reference to London.
 R. H. SMITH, *Agent*.

Patent Lifting Pump

THESE subscribers have pleasure in announcing that they are now prepared to receive orders for the Manufacture and erection of their new

PATENT LIFTING PUMP,

invented by Mr. John Dennis—one of the first, and allowed by competent Judges to be the most superior kind a Pump now in use. From the nature and simplicity of its construction, by the aid

of the **SPRING PISTON**,
Iron valve and Iron Nut-Joints—working in an Iron
yellinger, the water, instead of being sucked up as
in most kinds, is lifted from the bottom—and with
great ease—thus impossible to get out of
rendering it almost impossible, to get out of
this. The least work in a foot from turn-bolt
to the platform covering the well and to the piston
These, pumps have been tried in wells to depth
of from fifty to seventy feet, with admirable results
—and satisfactory references can be given.

Warranty to extend for Three Years.

The subscribers are also manufacturing an excellent
WOODEN PUMP,
Adapted to Wells Forty feet deep, or less, to which
they would call attention. Unwieldy of loss, to which
Pumps have been sold in great quantity
during the past season. References of a satisfac-
tory character can be given, to any person calling.

at their Manufactory, Newmarket.
 All orders for either of the above Pumps, addressed
 (post-paid) to the Newmarket Post-Office, will
 receive prompt attention.
